Objectives

This one day symposium is designed to benefit practicing perioperative echocardiographist and trainees. The program will review the National Board of Echocardiography Curriculum for the Advanced Certificate in perioperative Echocardiography.

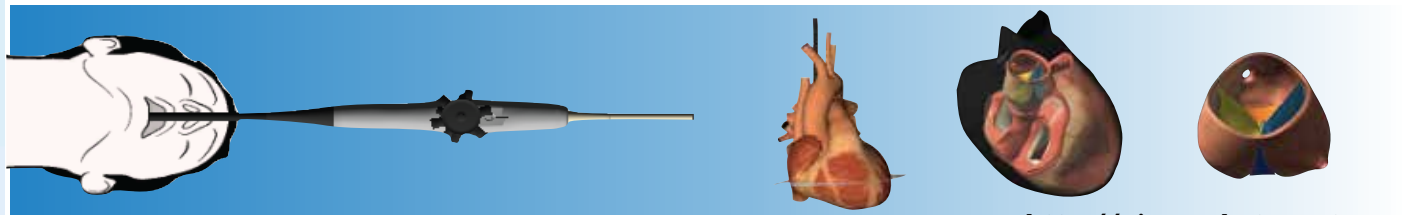

Participation in the program will enable the attendee to:

1. Understand common echocardiographic artifacts
2. Review quantitative echocardiographic LV and RV assessment
3. Familiarize with standard epicardiac views
4. Apply a simplified approach to adult congenital heart disease
5. Understand the role TEE and hemodynamic assessment
6. Review cardiac anatomy with a porcine model

The participants will have the opportunity to learn through lectures, discussion panels, and workshops.
